Abstract

This section provides a brief summary of the evaluation report, outlining the key question being addressed, methods used, and main conclusions.

Introduction

State the question being addressed in the report and provide context to the problem using relevant background information. This section should introduce the topic and explain why it is significant.

Methods

Describe the criteria being used for the evaluation in this section. Include a brief overview of the selected nation/region/sector and explain why this particular area was chosen for the evaluation.

Comparison

Here, make the necessary comparisons based on the criteria from the Methods section. Discuss how different nations/regions/sectors perform according to these criteria. You may break this into subsections if there are multiple comparisons.

Discussion

Synthesize the information you gathered from the comparisons. Discuss patterns, insights, and important findings based on the comparisons made.

Conclusion

Summarize the main conclusions of your evaluation. Reflect on what the comparisons suggest about the criteria and any recommendations based on the results.
